*Sewing Machine Best Practice

A sewing machine is an especially useful tool for many Afghan women. Used, good quality sewing machines can be purchased on Facebook Marketplace or Craigslist for under \$65 and may often be offered for free. In order to make sure that receiver is able to get utility out of the sewing machine they receive, we strive to check and address the following:

- Can sew straight stitch
- Can sew zig-zag (unless very old machine)
- Manual is present or printed*
- Contains at least a few bobbins that fit the machine
- Contains a pack of replacement needles
- Includes a zipper foot
- Is operating smoothly oiled and with good thread tension
